2 DEAD IN ATTEMPTED PRISON BREAK

'ROUND 'N' 'ROUND

Just when we thought we had the honors all sewed up for big game hunting along comes a high school baseball player with a sure eye and steady arm. Well anyway, whenever those boys run out of game to throw at we know where they can find a lot more.

There are still quite a few people in this world, some of them living in Richmond, who think that the proper way to dispose of garbage is to dump it along the streets. An excellent example of how a city should not be kept is presented along portions of McBryde avenue.

The Berkeley cat that turned in a burglar alarm recently must be a brother or second cousin to the one that eats at our house. Noises in the night are not to be trifled with, but the one that a cat makes while jumping into a bedroom window is one that would strike terror to most anyone.

Statistics attempt to prove that every other family in the state owns a radio. Judging from the "noise" in our neighborhood, the other ones must be living somewhere else.

Some of the boys have their tongue in their cheek while discussing the easy manner in which Burton F. Becker permitted himself to be ousted from the sheriff's office in Alameda. Maybe there were some things that would have sounded interesting at an open trial that some of the boys didn't want to become public property. Becker's confession to one of the lesser charges in his indictment was probably considered the easiest way out.

According to reports from San Quentin prison, Asa Keyes is just as sure that he is innocent of the crime which put him behind the walls, as are the thousands that the prosecutor sent there when he was in office in the south. And authorities are so certain that Keyes may have been just a little vindictive or playing politics when he prosecuted some of the convicts, that they are afraid to let him mix with them.

According to reports from Europe, the naval disarmament conference will probably be concluded in a short time. As we predicted some time ago, it will end with just about as much accomplished as when it started.

All those who hunt don't slay a deer. According to figures just released from Sacramento, only one out of every five hunters who obtained hunting licenses ate venison.

G. D. MILLER WILL FILL POST

OAKLAND, Mar. 13—With the removal from office of Sheriff Burton F. Becker today, when he pleaded guilty to a charge of willful misconduct in office, an important chapter in the investigation of the Oakland paving and vice scandal was closed.

Coroner Grant D. Miller was immediately appointed sheriff of Alameda county by Superior Judge Fred V. Wood, who issued the order ousting Becker from office.

The grand jury, in addition to issuing the "accusation" against Becker, has indicated 13 other city and council officials and individuals and is expected to return indictments against more when it resumes its session next week.

It was reported that at least 17 additional indictments were being prepared for issuance. All of those indicted to date have been charged with bribery or conspiracy to bribe, or both.

Seemingly broken in spirit, his head cast down, the former sheriff of Alameda county admitted in a low voice his guilt to the fifth charge of the 13 counts contained in an "accusation" against him. The charge accused him of "failing to act" against persons he knew were selling liquor.

Many Present
Before the courtroom, thronged with onlookers, Becker admitted being present at the alleged bootlegging resort of Frank and Jack (Continued on Page 8)

BETTER LIGHTS FOR AVENUE

Clark Barger, president of the Richmond Merchants' association yesterday appointed Al Furber chairman of a committee to originate steps for action to put on Macdonald avenue, as Richmond's main business street a lighting system more in keeping with the needs of the street. The appointment was made at a meeting of the association, and action of the group is a revival of its activities along the same line last year.

The lighting district at that time was not in shape to provide the necessary machinery, but since then a new law has been passed by the State Legislature and the association will now obtain the cooperation of Macdonald avenue property owners to act under that law.

The character of lighting which should be applied to the avenue was outlined at the meeting yesterday by H. H. Robinson, lighting expert of the Pacific Gas and Electric company. There would be six electric lights to the block with a 1000 candle power light inside a new type of globe, to give a total of 6000 candle power to the block, under the proposed plan.

The merchants at the meeting were of the unanimous opinion that further delay should not occur in securing a better lighting system for Macdonald avenue. James A. McVittie, city manager, and George N. Rooker, district manager of the P. G. & E. were also present at the meeting.

Tomorrow is the final day for filing income tax returns according to an announcement by Ralph Wood, deputy internal revenue collector. He and Joseph Dugan have been busy the past few days at their offices at Tenth street and Macdonald avenue in the offices of W. J. Richards, Jr.

The office will be open today and tomorrow from 9 a. m. to 5 p. m. He was formerly announced that the office would close at one o'clock Saturday, but Wood announced yesterday that it would remain open until 5 p. m.

NAVY AIR PROBE ASKED BY SENATOR

WASHINGTON, March 13.—(U.P.)—Why the United States has lagged in development of naval aviation and the reasons behind the sudden resignation of Lieut. Alford J. Williams, crack Navy speed pilot, would be the subject of a sweeping Congressional investigation introduced today by Senator Tydings, Dem., Md.

The resolution was aimed specifically at the Navy's treatment of Williams, who holds numerous speed records and was working on new plane designs when his resignation was accepted. Williams resigned after being ordered to sea duty aboard the aircraft carrier Lexington.

Declaring Williams was assigned to routine sea duty after distinguished service, Tydings said the naval aviator generally was acknowledged to be the pre-eminent naval pilot in this country and cited his decoration with the distinguished flying cross by the president for his contributions to aviation. His resolution said Williams was working on the type of plane in which the Navy is deficient, when he was ordered to sea.

Going beyond the Williams incident, Tydings demanded an inquiry by the senate naval affairs committee into conditions surrounding the type, speed, and construction of fast pursuit and bomber planes with those of other nations, "and all other matters pertaining thereto."

Adoption of the resolution might open the way to a wide inquiry into all aspects of naval aviation that would be similar in some respects to the court martial of Brig. Gen. William D. Mitchell, former Army Air Corps chief, dismissed for criticizing lack of progress in Army aviation.

The whole situation will be aired in the House when the Navy appropriation bill is brought up for debate.

OAKLAND IN ROW OVER GARBAGE

OAKLAND, March 13.—Following numerous complaints by Oakland restaurant operators and citizens against "irregularity of service and unsanitary handling" of wet garbage under the exclusive contract granted to the Contra Costa Hog Co. by the street department two years ago, Dr. Charles H. Brucher, city health officer today threatened arrest of those responsible unless causes of the complaints are remedied immediately.

In taking the first decisive step in the long-standing controversy, Dr. Brucher wrote to W. E. Mayer, 1116 Macdonald avenue, Richmond, representative of E. P. Mayer, head of the hog company. His letter told of the numerous complaints regarding the collection of garbage from the downtown business district and advised Mayer that should "this inefficiency on your part continue, I will take steps to have you cited before the prosecuting attorney to show cause why a warrant should not be issued for your arrest."

That there might be no doubt as to his determination to clear up the existing situation, Dr. Brucher declared he intended to carry his threat to E. P. Mayer as soon as possible.

Hotel Complaints
According to the health officer, the complaints as to the unsanitary method of handling and collecting of wet garbage by the hog company were first brought to his attention by the Hotel Coit, on Harrison street.

Dr. Brucher said the hotel management complained that collectors were in the habit of scattering wet garbage in the alley behind the hotel and that the appearance and odor was annoying.

"I investigated," Dr. Brucher said, "and found that unhealthy conditions are arising from the scattering of the refuse over the street."

U. S. TO GET BRIDGE PLANS

SAN FRANCISCO, Mar. 13—(U.P.)—Plans for the Golden Gate bridge will be submitted to the War Department for approval by chief engineer said today.

If the plans are approved and the proposed \$30,000,000 bond issue for construction is passed, actual work should begin not later than the end of the year, it was said.

In order to allow the north terminus of the bridge to rest on rocky foundation instead of in the water, the plans have been altered, Strauss said, adding 200 feet to the length of the span.

Martinez Firemen Join Association

MARTINEZ, Mar. 13.—The Martinez firemen last night joined the recently organized Contra Costa County Firemen's association.

The association plans to meet March 25 at Walnut Creek.

WETS, DRY IN ROW BREAK UP PROHIBITION HEARING

WASHINGTON, Mar. 13—(U.P.)—Wets and drys broke up the prohibition hearing late today in a row over the charge of Rep. Emanuel Celler, Brooklyn, N. Y., democrat, that the dry leader, Mrs. Henry W. Peabody of Boston, prompted and coached her witnesses.

So angry that he shook with rage, Rep. Sumners, Dem., Tex., characterized Celler's assertion as "an insult to the lady which he did not dispose to tolerate." Jumping to his side, Rep. Hammer, Dem., Tex., moved that the allegations be expunged from the record.

With several committee members talking at once, the 79-year-old chairman of the House Judiciary committee, Rep. Graham, Rep., Ind., dropped his gavel and announced the hearing adjourned until tomorrow morning.

Bitterness Shown
The display of bitterness came at the end of a day of charges and counter charges, during which three dry witnesses, Charles M. Hay, St. Louis attorney, Coach Alonzo Stang of the Chicago University football team, and Carlton M. Sherwood, secretary of the citizens committee of 1000, New York, gave testimony in support of the Eighteenth amendment and the Volstead act.

Celler tried to read to the committee a copy of the record of yesterday's proceedings when Mrs. (Continued on Page 6)

FITTS HITS YOUNG IN HANGING

SAN QUENTIN, Mar. 13—(U.P.)—Up two flights of stairs outside an old brick building a small group of men will march here Friday morning to witness the execution of Alphonse Relly, 22, of St. Louis.

Relly was in the death chamber adjoining the execution room tonight. He was remaining calm.

"I know it is all over with me," he said.

Relly was convicted of the murder of Abraham Sandelman, clerk, during the robbery of a Los Angeles shoe store more than a year ago. He fired hastily when Sandelman ran toward him. Governor C. C. Young, in denying a reprieve of 60 days while Relly's sanity might be tested in prolonged examinations, said evidence showed the youth had paid \$11 from a \$14 pay check to buy the revolver for the holdup and six physicians had studied him.

WOMEN DON'T EAT ENOUGH, MEDICO SAYS

LOS ANGELES, Mar. 13—(U.P.)—An attack generally regarded as the first blow in California's coming gubernatorial election was made on Gov. C. C. Young today by District Attorney Buron Fitts, in criticizing the executives conduct of the case of Alphonse Relly, scheduled to be hanged Friday.

Fitts charged that only parts of a letter from the district attorney's office to Governor Young were used by the latter in announcing that Relly must die. Both officials are candidates for the post of governor.

Fitts' attack on Governor Young was in the form of a letter. He said that in announcing his decision in the Relly case, Governor Young quoted a letter written by William McKay, a deputy in Fitts' office, but used only such parts as supported the governor's views.

The part quoted, according to Fitts, was:

"I beg to advise you that the record itself discloses that this man was guilty of a well-planned, deliberate and cold blooded murder. Our office is of the opinion that the sentence should be no (Continued on Page 8)

WOMEN DON'T EAT ENOUGH, MEDICO SAYS

CHICAGO, March 13.—(U.P.)—Members of the Chicago Women's club asked Dr. Morris Fishbein just what was wrong with their sex, if anything.

Dr. Fishbein, internationally noted as editor of the American Medical Journal, replied tonight, in a speech which took him almost two hours to deliver.

He said in effect that women are very charming creatures, but that they don't eat enough. And too much of what they do eat, he charged, is not what they should eat. Thus they endanger their health and their beauty by eating foods which they fondly hope will cure whatever is wrong with them and believe will give them peaches and cream complexions, sparkling eyes and other attributes of the woman beautiful.

Not only have strange food cults been started by unscrupulous modern businessmen, said Dr. Fishbein but they also have been inaugurated by "almost every religion in the history of mankind."

"Emperors with bad digestions have popularized dry bread and water," he continued. "Orthodox Jews avoid pork; Catholics eat no (Continued on Page 8)

AIR BASE BILLS BEFORE HOUSE

SAN FRANCISCO, Mar. 13—(U.P.)—The \$15,000,000 project for the construction of two local army air bases today needed only Congressional approval before work could be started.

The bases, to be located near the Alameda airport and in Marin Meadows, have already received the approval of J. Clawson Roop, director of the budget, and of President Hoover.

At present the bills approving the bases are before Congress, and action may be taken on them at any time.

Robert F. Cox, Richmond Scout executive, who was scheduled to speak before the Richmond American Guard last night, was unable to appear, but will be heard at a future date, according to an announcement made at the meeting.

After a short business meeting, members of the Guard enjoyed a social evening of cards.

Schools will open on April 21, the day after Easter, Miss Ashfield stated.

NEW PLANET DISCOVERY STIRS HUNT BY SCIENCE

FLAGSTAFF, Ariz., Mar. 13—(U.P.)—Scientists in all parts of the world tonight are scanning the heavens with high powered telescopes endeavoring to locate a new solar body believed to have been discovered by the Lowell observatory officials here.

The new body is said to be far beyond Neptune, the most important distant of the heavenly bodies yet recorded by scientists.

According to observatory officials, the body was first located on Jan. 20, and since then careful observations have been underway.

Telegraphic advices to many of the famous observatories over the country were sent from here today.

Since its first appearance, the body has slowly been receding in the background thus causing widespread call for assistance. However, local observers are confident that the body is traveling in its own orbit and will not fade into obscurity.

If the new body is the ninth planet of the solar system, as believed here, it will be the first astronomy discovery of note since 1846, when Neptune was charted by European scientists.

The planet, as yet unnamed, is probably larger than the earth, but smaller than Uranus, local observers say.

SYSTEMATIC SEARCH REVEALS PLANET

CAMBRIDGE, Mass., Mar. 13—(U.P.)—A new planet, probably larger than the earth, and smaller than Neptune, has been located by European scientists.

LEGION POST HAS BIRTHDAY

The eleventh anniversary of Richmond post of the American Legion was celebrated at a meeting in the Memorial hall last night. Dr. Lowell R. Sears, commander presided.

The Legion was instituted Mar. 15, 1919 and is 11 years old tomorrow.

Entertainment was provided and a banquet served. George Tandy and F. Wierda, past commanders of the post, and charter members, gave interesting talks on the early history of the Legion. Community singing was enjoyed with J. E. Hill acting as leader. Denney Shaw accompanied on the piano.

George Sanderson, service officer, reported that four veterans had been taken of this week and sent to the Mare Island and Letterman hospitals.

Sears appointed E. J. Davis publicity chairman and F. H. Sletten chairman of conservation.

Sletten will work in conjunction with the state in conservation of trees, fish and game etc.

H. H. Zimmerman was appointed chairman of the Junior baseball committee for this season. He will be assisted by J. E. Hill and Dan Bradley. The committee will meet early next week to make plans for the coming season which opens April 1.

Suspect Held On Theft Count

Charged with petty theft, W. J. Harris, 39, who told police that he has no home was being held in the city jail last night.

Harris was charged with the theft of a \$2.50 compact box from a local drug store last night. Police declare that the article was found in his possession. Harris, according to authorities, denied the charge, claiming that he had found the box.

He will face Police Judge C. A. Odell this morning for hearing.

1000 Homeless In Island Fire

MANILA, P. I., Mar. 13—(U.P.)—More than 1000 persons were homeless here today after a destructive fire had swept through blocks of the most congested residential district. The blaze started in a row of frame buildings occupied by natives.

GUARD SLAIN BY FELON, 2 HURT

TRENTON, N. J., Mar. 13—(U.P.)—Charles Evans, a double life-term prisoner, who left the outside world at 18 for killing two policemen, ran amuck in Trenton state prison tonight and died with a bullet through his temple after he had killed one guard and wounded another. A third guard was wounded, whether by Evans or a fellow guard was not determined.

The dead: Frank Butcher, guard, shot thru the heart by Evans.

Charles Evans, 29, the "lifer," wounded: Charles Soren, guard, slugged and seriously injured by Evans. William Gordon, guard, shot in the shoulder by Evans or another guard.

For two hours townspeople believed there was a riot to contend with. The prison siren shrieked alarm; patrol loads of police dashed through the streets; a close cordon was drawn around the ancient prison, convicts inside shouted in impotent rage and at the bars of their cells.

At 8 o'clock, two hours after the alarm, it was announced that all was quiet.

The wounded guards were removed from the prison. Excitement prevailed outside the walls of the prison when first reports of the trouble within leaked out. The prison is located on the outskirts of Trenton and dwellings extend almost to its very walls. It is one of the oldest prisons in the United States and originally was designed to emulate in general appearance an Egyptian temple.

The Trenton police formed a cordon at once around the prison, and some of them went inside to aid the embattled guards.

None but police and guards were allowed inside the walls.

NAVAL PARLEY FAILURE SEEN

LONDON, March 13.—(U.P.)—Extraordinary efforts were made today and tonight to hold the disintegrating naval conference together and salvage some form of peace agreement from the divergent programs of the powers.

Foreign Minister Aristide Briand of France, after saying he believed such an agreement could be reached, deferred making a statement late today regarding his country's stand for a security pact. He denied the situation was critical.

The fact emerged that during a round of visits by "big five" delegates both England and the United States determined the conference would reach an agreement in one form or another, and decided to accept a second or third best arrangement if unable to secure the treaty they desired.

Lindy Gliding, Frightens Cows

CARMEL, March 13.—(U.P.)—A herd of cattle was frightened today when Col. Charles A. Lindbergh's glider landed in a meadow less than two miles from the hill which it had started from.

"Winds failed Lindbergh and cut his flight short. He had put four turkey sandwiches, a bag of pears and some bananas into the cockpit, indicating a long flight was contemplated. In landing he skillfully maneuvered to clear telephone wires.

Air Crash To Be Investigated

SEATTLE, Wash., Mar. 13—(U.P.)—Investigation was under way today into the cause of a crash over Boeing field in which two planes met head on at high speed and telescoped. Five persons escaped with slight injuries. The planes were piloted by Frank Whaley, 35, Continental Flying school, and Ray Renshaw, 22, of the Universal Aviation corporation.

"LITTLE OLD NEW YORK"

Gray little weatherbeaten house
Perched upon a hill—
What thoughts do you think,
What things have you seen—

The hem of the city
Breaks raggedly around you,
Huge slabs of granite and honeycombed stone
Point their slim fingers
Up toward the sky.

Strange and unearthly creations
Man has harnessed for his work and his pleasure,
But your windows are curtained
With fragments of dreams—
You see not a thing.

The smoke curls lazily
From your red brick chimney;
In the garden the lilacs and roses
Still remember when to bloom.

Love and the Light of Common Day

PEGGY JOYCE, past authority on husbands, stipulates that the domestic one shall not let her see him until he is shaved, since "it is very thing to have to look at a husband early in the morning." Another ultra-fascious young woman inveighs against the "old cream and bare feet" stage of domesticity. What any wife of several years' standing, who is in love with her husband (believe us, the phrase and the clause are not necessarily inconsistent)—what she wonders how such finicky, such shrinkingly disdainful folk can call themselves in love at all!

The trouble with the propaganda against so-called "sordid domesticity" is that it tends to make young persons believe that all the simple and natural domestic contacts are sordid, that marriage—because of the closeness of its associations—"takes the bloom off love," and that the most elaborate and pensive precautions must be adopted by young married lovers against "disillusioning" each other.

From such a point of view it is only a step to the conviction that marriage is the death of love—that to keep romance romantic, it must be kept unfulfilled. We don't mean to be dogmatic, but at this stage of the argument we can only exclaim, "Rubbish!" Plenty of happily married women will make the extermination a charge.

It simply is not true that love fulfilled, in the customary matrimonial manner, loses its bloom and glamour and beauty. Real love is no bud which marriage blights. It is a whole rose-tree which grows over more vigorous in the sunshine and rich soil of happy married life. To say that such love cannot endure the sight of a toothbrush or a shaving brush, even in the same room, is to say more than once insisted—to say a vain thing.

Does anybody ever pretend that a mother's love for her child "has the bloom rubbed off" because she sees the child with dirty hands and even washes them? Then why in the world should a wife care less for her husband, or he for her, because they must sometimes gaze at each other at informal moments? What normally healthy and affectionate person I reviled by them, or indeed thinks twice about them?

LOVE between man and woman is all a wonder and a wild desire, but also and always it is "a creature not too bright or good for human nature's daily food." The plethora of super-sensitive advice to the contrary simply must not be taken seriously by the youngsters.

Of course one difficulty is that nature of the most beautiful thing about love has been done by the marriage—but the reason is not necessarily that when two marry poetry goes

out of love. The reason may be that the happily married pair are living their poetry instead of writing it. Even in prose, the old illusion that love is more truly love—romance—when it is frustrated than when it is fulfilled, obtains constant currency. The latest expression of it which we have found is in that most fascinating new novel of E. Arnold Robinson's, "Three Came Unarmed."

"This is the story of three splendidly strong, yet, appallingly defenseless young pagans, who have grown up in the wilds of Borneo and are suddenly plucked down into a slightly conventional English society. Of course they are bewildered, misunderstood, persecuted in a hundred ways. As Miss Robinson rightly observes: 'Not to conform to the standards of the herd is to endanger its unity, to challenge, however unintentionally, its fierce instinct of self-preservation.'"

"Love," she argues, "seems as if it might be the reflection in men's minds of a flame kindled far off, outside our cooling world and too bright for it to bear at times—or else an alien malady, caught from some other sphere where all things grow to nobler stature, whose infection should not have spread into the earth, our substance. For human hearts are not built strong and steadfast enough to stand its pain; nor its assuagement."

"Unappeased, love in fine natures is a devouring agony, hunger past all bearing sometimes. In fulfillment, it lives out its own parody when, captured, it turns homely, forgetting little by little its wild enchantments, and dwindles to a small, peaceful, gracious thing, or an even smaller fretful thing, nagging where it used to triumph."

"Love, satisfied, robs the far side of blue hills of all their mystery, their disturbing appeal to the spirit. There is no vast secret to be found behind them now; it seems, for the revelation of the secret is here; and it is inadequate."

But it is not inadequate to those who have lived with love through years of happy marriage, in the light of common day. Such love is neither inadequate, nor overdone and precariously dainty. It is simple and natural as sunlight over a breakfast table fragrant with coffee—and the sunlight remains as magical, even though you yourself set the coffee percolating. Oh, well, if you love and are afraid of marriage, or try it only with the tips of fastidious fingers, it's your loss!

CA DISH CA DAY

By Nancy Dorris

Although spring is weeks away, the menu already begins to reflect the joyousness and color of the approaching season. The bright garden vegetables take on a new interest despite the fact that many of them have been obtainable in the city markets during the late fall and winter months.

Zesty vegetables of the relish type, watercress, radishes, chives, onions or scallions, dandelion greens, become unusually desirable and make of the salad a course extraordinary. Succulent greens, in new combinations, colorful garden treasures, surprise element and a peppy dressing contribute to the success of the luncheon or dinner salad.

The tiny shoots of chives, that mild-mannered member of the onion family, minced and used to garnish dainty balls of cream cheese constitute the surprise of a very beautiful luncheon.

SPRING SALAD
One and one-half cups cottage cheese
Four teaspoons minced chives
One bunch watercress
Three large tomatoes
One hard-cooked egg
One cup bottled dressing or mayonnaise
Servings—Six

The cottage cheese may be the home-made variety or that delivered with the morning milk and cream. The dairy cheese comes mixed with sweet cream and requires little additional seasoning; some salt, a dash of cayenne and a touch of mustard may be liked.

At this season the growing chives are noticed in the large markets and exclusive vegetable stores. A small clump with the earth clinging to the roots

may be planted in a pot and kept growing on the kitchen windowsill. Watered and tended kindly, the little plant will produce new shoots for future seasoning. Mild in flavor, chives add materially to the charm of many spring dishes.

The peppery watercress, washed gently in lukewarm water and then placed in a mistle bag and left near the ice, or placed in a refrigerator jar and set in the mechanical refrigerator to crisp, foundations a delightful spring luncheon salad.

The tomatoes, ripe and firm, require plunging in hot water and then skinning before a period in the refrigerator. The cheese mixed to taste with salt and pepper is formed into eighteen balls the size of walnuts and rolled in the minced chives, then set a-chilling into six parts.

Shortly before luncheon arrange the chilled watercress upon the salad plate. Place half a tomato upon each plate and set three chives-covered balls of cheese upon the tomato half; top with a bit of egg yolk, pyramid well a hard-cooked egg. Mince or dice the egg white and divide the yolk into six parts.

A bought or homemade mayonnaise or salad dressing should be at hand as well as a hard-cooked egg. Mince or dice the egg white and divide the yolk into six parts.

School nurse says all girls should know this

TALKING to a roomful of high school girls on personal hygiene, an experienced district nurse said: "One of the basic rules of health for girls is to keep the system functioning naturally at all times. Normal exercise and diet habits should be taken. But when necessary there's no harm in taking nujol, since it works mechanically and can't disturb the normal functions of any organ of the body. Particularly with girls, there are times when nujol should always be taken. Take a spoonful every night for a few days. It's a thoroughly safe and harmless method. It won't cause distress or gas pains or griping."

Nujol is different from any other substance. It contains no drugs or medicine. It can be taken safely no matter how you are feeling because it is so pure and harmless, and works so easily. Every woman should keep a bottle on hand. Every druggist has this remarkable substance. Get the genuine.

Announcing Another P. G. and E. Electric Rate Reduction

\$2,400,000.00 Saving to Consumers

Now, electric rates for consumers of the Pacific Gas and Electric Company are reduced over Two Million, Four Hundred Thousand Dollars a year.

Lighting rates are cut to a maximum rate of 4½ cents per kilowatt hour for incorporated areas, with a similar reduction in all areas.

The new rates are of greatest benefit to the small consumer—the residence user, stores and offices. Substantial reductions have been made in commercial, industrial and agricultural power rates. Street lighting rates are reduced.

Domestic combination rates for consumers using lighting service and in addition having electric appliances for heating and/or cooking, are as low as 1½ cents per kilowatt hour. The new commercial lighting schedules provide for lighting rates as low as 2 cents per kilowatt hour.

These new schedules providing lower electric rates are designed to encourage liberal usage of electricity at low cost. The new rates are among the lowest obtainable anywhere.

ELECTRICITY IS CHEAPER—YOU CAN USE MORE—MAKE IT YOUR SERVANT

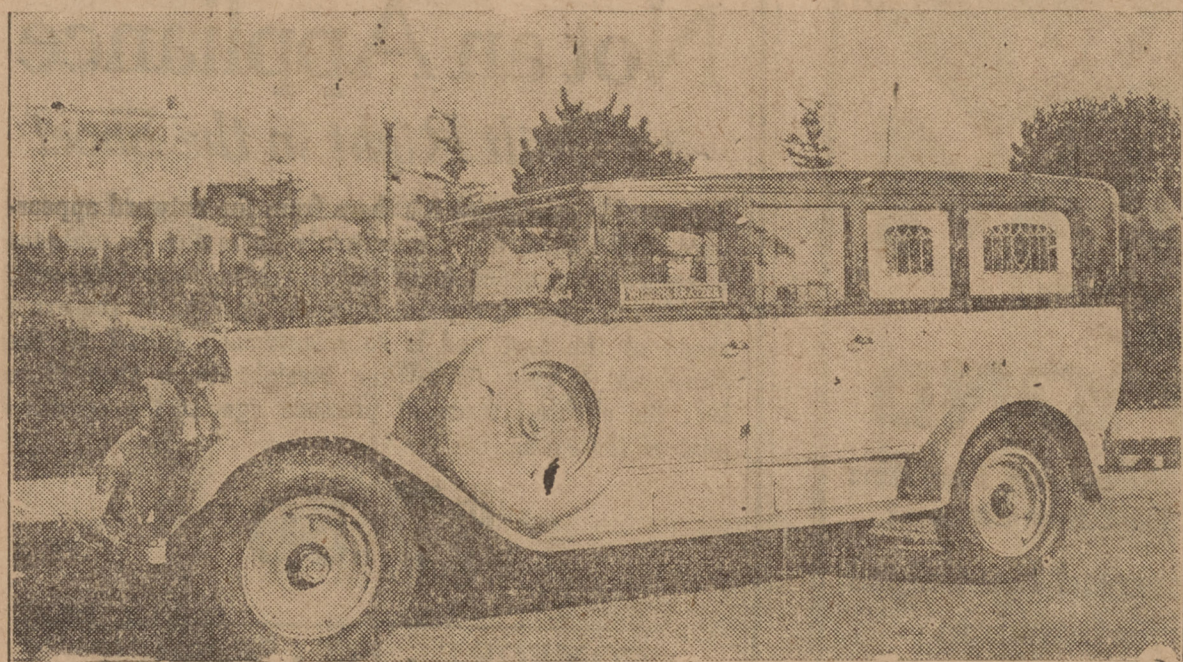

Let electricity brighten the gloomy corners. Let it do the cooking, ironing, washing. Let it sweep the floors, operate the electric fan, drive away chills. It will percolate the coffee, make the toast, keep food warm or cool and wholesome.

Modern electric appliances bring comfort, convenience and economy.

POPULAR HERO WANTS TO BE "HEAVY"

It is the nature of the human to desire that which he hasn't got regardless of whether it's good for him or not. Lloyd Hughes, who plays the leading role in "Acquitted" the Columbia all talking drama to be played at the Fox-California theater tomorrow cherishes an ambition to play a "real villain." There are few actors who would be unwilling to occupy the position now held by Lloyd Hughes in the screen world. They wouldn't entertain any desire to jeopardize their reputation by attempting any other type of role but that which had become a part of their personality. Hughes is just the type of clean cut, straightforward looking young man who is invariably cast for "heroes." He's been playing them for so many years that he feels that he would like to try his talents out in another line.

However, there isn't very much chance of his ever getting an opportunity to display his versatility. No amount of argument could convince any producer that a man who looked as appealing as Lloyd Hughes could or should play anything but a heroic character.

In "Acquitted" he plays a manly and likeable role. Margaret Livingston, Sam Hardy and Charles Wilson are others in the cast. Frank Strayer directed.

A Mickey Mouse cartoon is also on the program.

Laughing Lady Laughs Way To Heart Of Many

"The Laughing Lady" laughed her way into the hearts of patrons at the Fox-California theater yesterday. She did a little fighting too with her laughing.

Ruth Chatterton in the title role, was every bit the sterling "talkie" actress she proved to be in "Charming Sinners"—and then some.

As the darling of society who becomes innocently embroiled in a scandal which threatens to ruin her social standing, she gives a portrayal which stacks up neatly against the same portraiture which Ethel Barrymore did with the part several seasons ago in the original at stage play by Alfred Sarto.

Miss Chatterton laughs at those who had accused her and plunges forcefully into her own well-planned battle against them, emerging the victor, with a romantic conquest of Clive Brook, her erstwhile enemy, to boot.

After seeing and hearing this brilliant comedy-drama one realizes why Miss Chatterton has such a great fan following.

The talking comedy, Taylor Holmes in "He Did His Best" is also on the program.

SHAKESPEARE NO POACHER SAYS DEAN

SAINT MARY'S COLLEGE, Mar. 13—Another intriguing story about a great man has gone into the discard. That William Shakespeare did not get into trouble into his native town of Stratford for poaching on the deer preserves of Sir Thomas Lucy and that a familiar and long-lived legend must go the way of similar myths, was the contention of Brother Leo, Dean of Saint Mary's College in a recent lecture in San Francisco. Modern scholarship, he maintained, makes the poaching episode completely untenable.

Visitors to Stratford, shown the extensive park at Charlecote, in imagination follow the young poet stealing the dappled deer. Brother Leo said. Such visitors for the most part do not know that the park they so much admire was not in existence in Shakespeare's day. Sir Thomas Lucy did indeed live at Charlecote, but the park we see today was not laid out until a century after Shakespeare was supposed to have trespassed upon it. Even a Baconian must admit that Shakespeare could hardly have shot deer in a park which did not exist until long after his death.

The Saint Mary's instructor also took a good-natured fling at those writers who like to call Shakespeare "the Stratford rustic" and hold that his education was extremely meager.

"The Stratford Grammar school was not a backwoods institution," he declared. "It was founded by a Catholic confraternity, the Guild of the Holy Cross, and traditionally the master of it was an Oxford graduate. Shakespeare, though not a scholar in the sense that his friend Ben Jonson was, learned to read Latin at the Stratford school, and subsequently as the client of the Earl of Southampton in London had access to the finest private library in the kingdom. In Southampton's palatial residence in the Strand the young poet had the opportunity of meeting learned visitors from the continent and of picking up a large assortment of learning in his conversation with them."

RICHMOND HIGH TRACK TEAM IN MEET TODAY

Richmond Union high school athletes will have their first opportunity to show their worth when they compete in a three-cornered meet with University high and Berkeley high schools today at Bushrod park in Oakland.

Richmond high's chances of a successful track season seemed rather probable last night when the local athletes took part in the final tryouts for the high school track squad.

The local team is exceedingly strong in the running events, although rather shaky in the jumps. If Richmond's sprinters and long distance runners show their usual speed in tonight's meet, the Richmond track team will be in no danger of a small score. The prowess of Richmond's entrants in the throwing events is also expected to make up for the team's lack of jumping material.

The Richmond varsity track men who are certain of going to Berkeley today are: Mack, Dalton, Bowman, 100-yard dash; Young, Reveda, Johnson, 800-yard run; McLean, O'Brien, 120-yard hurdles; Jacobson, Shallenberger, Brock, 440-yard dash; Masek, Dalton, Bowman, 220-yard dash; Albert Robak, Beltz, Cezario, mile; Lane, Bravin, 220 low hurdles; Dalton, Lane, Bowman, Masek, half mile relay; Jackson, polevault; Chason, Bravin, Nelson, Hoelter, Locke, discus and shot; Gerletti, Passone, Kenny, high jump; Lane, Maloney, Dunleavy, Masek, running broad jump; Dunleavy, Brock, javelin.

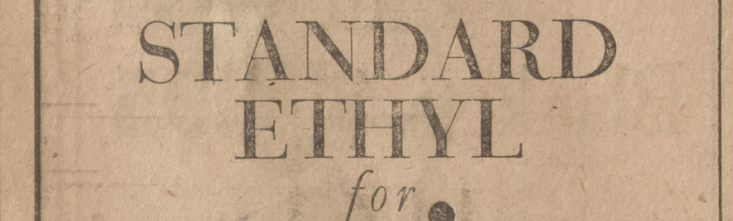

The members of the Richmond high B track team who will compete in Oakland today are: Sakai, Alimonte, Snodgrass, 50-yard dash; Robertson, Dubois, Davilla, 800-yard run; Armstrong, Snodgrass, 300-yard dash; Maloney, Alimonte, 220-yard dash; Garside, Fareria, 120-yard low hurdles; Maloney, Alimonte, Snodgrass, Sakai, relay; Rogers, Jackson, Wakefield, polevault; Davilla shot; Schneider, Dubois, high jump; Snodgrass, Alimonte, Maloney, broad jump.

WETS, DRYs IN ROW BREAK UP PROHIBITION HEARING

(Continued From Page 1)
Feabody led a group of 23 nationally known women witnesses before the committee. It seemed the stenographer had noted Mrs. Peabody's sotto voce remarks to the witness, she has, "Don't answer that," "say you don't know," and the like.

Objection was made by Rep. Stobbs, Rep., Mass., who said he did not consider the matter of great importance.

Long Battle
The same situation was manifest when the wet Representative LaGuardia, Rep., N. Y., got into an argument with Sherwood as to whether any members of the board of the committee of 1000 favored his characterization of the wets as "fanatics." LaGuardia developed that one member of the board was William Green, president of the American Federation of Labor who favors light wines and beers.

The spirit was manifest again when LaGuardia brought out that Hay had once acted as attorney for Heber Nations of St. Louis, when Nations was convicted for conspiracy to withdraw liquor.

The arguments between the wets and Hay lasted all afternoon.

Stagg Talks
The only semblance of peace was offered when "the grand old man of football," Stagg, took the stand.

Stagg said prohibition had helped the young men with whom he came in contact. He said that football coaches were unanimous in their conditions are getting better each year and the great mass of the students were "censible and self-disciplined."

NINTH PLANET FOUND IN HEAVENS

(Continued From Page 1)
yond Neptune by astronomers of Lowell observatory at Flagstaff, Ariz., the Harvard observatory announced here today.

The new planet, ninth in the solar system, was discovered after a systematic search begun years ago by the late Percival Lowell, who died in 1916 after achieving fame through his study of the problem of the so-called "canal" markings on the planet Mars. For this work he was awarded the Janssen medal of the French astronomical society.

Found By Calculations
Discovery of the planet was made in much the same manner as that of the planet Neptune. Neptune was located Sept. 23, 1846, after mathematical calculations of certain perturbations in the orbits of Uranus and Saturn, believed at the time to be caused by the presence of some exterior planet.

Calculations similar to these were made by Professor Lowell some years before his death. Since 1915, when the results of these calculations were published in the proceedings of the American Academy of Arts and Sciences, the observatory at Flagstaff has been seeking the new planet in the sky.

Seen 7 Weeks Ago
A small object was observed seven weeks ago and since that time had been watched closely. Yesterday the rate and direction of its motion showed it could be certified to conform nearly enough to the orbit calculated by Lowell.

Its position on March 12, three hours Greenwich time, was seven seconds west from Delta Genitorum, agreeing with Lowell's predicted longitude.

Only the most powerful telescopes now in existence can see the new body. Its distance from the sun is so great that but little light and heat reach it.

Six other rookies were also dropped.

O. C. QUINTET BEATS K.C. TEAM

KANSAS CITY, March 13.—UP—Two college basketball teams, one club team and an independent five from Wichita Kans., were contended tonight for the basketball crown of the National Amateur Athletic union, the result of play in the tournament here.

In the last game of the evening, the Bethany college five from Lindsborg Kans., vanquished the South Side Turners of Indianapolis, 21 to 15.

Playing at-light basketball, the East Central Teachers of Ada, Okla., defeated the Murphy-Diddell five of Omaha, here tonight in the opening game of the National Amateur Athletic Union tournament, 44 to 33.

The Nebraskans gained a small lead during the early period, but were quickly overhauled. Attack of the Teachers centered about Carlton, who scored seven times from the court and converted three free throws. Jensen for the Omaha five, accounted for five field goals.

At the half the Pacific coast team led 22 to 2. Their whirlwind attack bewildered the locals. During the closing minutes the Blue Diamond's recovered but too late, to overcome the visitor's lead.

The Bears have two games apiece with the southern ball clubs meeting U. S. C. Friday and Saturday and U. C. L. A. Monday and Tuesday. The Bears hope, in the four games, to clinch both series. Final games are to be played later in the season at Berkeley.

The Bears are due to arrive in Los Angeles Friday morning and will go direct to the Hotel Alexandria, where their headquarters will be during their stay.

The GREEN GODDESS

Copyright, 1922, by Frederick A. Stokes Company

"The Green Goddess," starring George Arlino, is a Warner Bros. Vitaphone picturization of this novel.

SYNOPSIS
Major Anthony Crespin, his ex-bride, Lucilla, and Dr. David Trohner, the Major's friend who is in love with Lucilla, find themselves prisoners in the palace of the Raja of Rukh following a forced airplane landing due to a Himalayan fog and the lack of petrol. They learn that the Raja, educated at Oxford, intends to sacrifice them to the green goddess to satisfy his desire for vengeance if his three half-brothers are executed in India for murder. He learns by wireless that their execution is set for the next day. He offers to allow Lucilla to escape if she will enter his household.

CHAPTER XXV—Continued
"Oh, pray spare me a few moments. I want to speak to you seriously."
Mrs. Crespin sat down listlessly. "Well—" she said wearily, "I am listening."

"You are very curt," Mrs. Crespin said pleadingly, seating herself at the writing-table. "I'm afraid you bear me malice—you hold me responsible for the doubtless trying situation in which you find yourself."

"Who else is responsible?" she demanded, her voice curt and cold. "Who? Why chance, fate, the gods, Providence—or whoever, or whatever, pulls the strings of this unaccountable puppet-show. Did I bring you here? Did I conjure up

The county ranked thirty-second lowest in expenditure per pupil in average daily attendance in 1928-1929, the cost being \$92.10, an increase in 42 cents over the per average daily attendance expenditure of the county for 1925-1926, when it was \$91.68. GARBAGE FIGHT RENEWED IN OAKLAND

(Continued from Page 1)
streets and in alleys of the city from unclean garbage cans and wagons.

Correction Promised
In declaring that this was the first time that such conditions have been brought to his attention, Dr. Fancher said he would leave no stone unturned in an attempt to remedy conditions. He stated that until recently Mayer had cooperated with him in observing sanitary regulations.

The doctor's ultimatum comes close on the eve of two other major developments in Oakland's war over the garbage collection. That a \$20,000 slush fund was used to "grease the wheels" in the granting of the Mayer monopoly, looms as a probable subject for grand jury investigation. A legal battle over their respective rights and privileges is beginning between the Contra Costa company and the Oakland Scavenger company, as the other development.

Two Arrested
The arrest of two garbage collectors was caused last week by Mayer, who alleged they had infringed upon his exclusive contract to collect all wet garbage of 50-gallon lots or more. He is also seeking an injunction against the Oakland firm, which has replied with a cross-complaint attacking the legality of Mayer's contract and asking an injunction to prevent him from interfering with its collection of dry garbage and wet garbage under 50-gallon lots.

City hall officials, up to this time have defended the Mayer contract on the grounds that the city's police powers make possible enforcement of sanitary measures designed to protect the public health. Declaring that sanitary features of the contract have not been observed, the Eastbay Restaurant association has aligned itself with the Oakland Scavenger company.

ROTARY GOOD SCHOW OPENS NEW STORE WILL FLIGHTS TO START

F. B. Schow has returned to Richmond and is opening a new "Togs" at 1103 Macdonald avenue. Eight months ago Schow sold out his store on Macdonald avenue between Tenth and Eleventh streets and left Richmond amid expressions of regret by hundreds of his friends.

Several weeks ago Schow returned, leased his new store and received shipments of new clothing which have been placed on display in the store, which is one of the most modern in the city.

A formal opening of the new establishment will be held today and tomorrow, with gifts for the women who visit the store. Schow stated that with the purchase of \$5 short hops to cities having landing fields and Rotary clubs.

Flights in the southland will include San Diego first, then to Fresno, Bakersfield and Los Angeles, where he will be greeted by members of the local Rotary clubs. Several days will be spent in southern California making short hops to cities having landing fields and Rotary clubs.

Plans for the district conference, while original and extensive in character, are being formulated with enthusiasm and rapidity, according to Lee H. Newbert, president of the Oakland club and the chairman of the conference executive committee.

Entertainment features, it is promised, will be broad in their scope and wholly different from anything heretofore attempted in the west. Max Horwinski, past president of the Rotary club, is in charge of these. A colorful pageant, an elaborate governor's ball and a golf tournament are included in these events.

Women Don't Eat Enough Medico Says

meat on Friday; Hindus respect the "sacred cow" and immovable cults have abolished meat entirely.

Dr. Fishbein said that symbolism rather than ordinary common sense caused most such religious food rules.

"There is not the slightest scientific evidence to support the notion that any of the common articles of diet are harmful to human life and health under normal conditions," he added. "The wise man eats a well balanced meal of milk, meat, bread, cereals, eggs, sugar, fruit and vegetables."

Dr. Fishbein accused his audience of several hundred club women, some of them apparently too well fed and others entirely too slim even for present-day styles, of paying too much attention to trick advertising in choosing their diets.

Dr. Fisherbein charged his listeners with eating much less food than their mothers and intimated that they were the worse off for it.

REILLY WILL BE HANGED TODAY

(Continued from Page 1)
way be altered."

Fitts said that in quoting McKay's letter, the governor omitted the portion of a sentence bearing on sanity.

"If Reilly is sane he should be hanged," Fitts said in his open letter to the governor. "If he is insane it would be a gross injustice to carry out the sentence."

In answer to Fitts' charges, Governor Young late today issued a statement in which he said that his responsibility as governor in dealing with the lives and liberties of condemned men is "far too sacred to permit me to cheapen it by controversies with the district attorney or anyone else."

On the question of the sanity in Reilly's family, the governor called attention to the fact that it was the duty of the district attorney to make recommendations for or against the application for commutation. In letters from Fitts there was no suggestion that a reprieve or commutation of sentence be given Governor Young declared.

Every phase of the case, including the question of sanity received his personal and exact care and is too clear to admit of mistakes, the governor concluded.

Reilly, a St. Louis, Mo., youth, is to die in San Quentin prison on Friday for the murder of Adolph S. Brown, shoe clerk during a holdup here. Many persons, including movie celebrities have appealed to the governor to commute his sentence, saying there was insanity in the Reilly family.

BECKER OUSTED IN OAKLAND PROBE

(Continued from Page 1)
Gardella, near Livermore, and also at Groce's, another reputed bootlegging place.

Judge Wood immediately pronounced judgment, making an ordinary citizen out of the former sheriff.

Miller's first act as sheriff was to begin swearing in again the members of the staff he intends to retain.

3000 Removed
With the ousting of Becker, 40 paid subordinates—undersheriffs, deputies, court bailiffs, jailers, and jail matron—and about 3000 special deputy sheriffs throughout the county were removed from office.

Among those first sworn in by Miller were Undersheriff H. M. Springer, William Gale, chief jailer, Mrs. Lucy Russell, jail matron, and deputies William Bradbury and Joseph Del Monte.

Miller will remain in office until the county board of supervisors picks a successor. The board meets Tuesday, and is expected to take action at that time.

Becker Ousted
Under the "accusation" law, Becker is punished by only two penalties—his removal from office and being barred from ever again holding public office.

Although these penalties were accomplished, the remaining charges still stand in the court record. A motion by Kenneth C. Gillis, Becker's attorney, that the other 12 counts be dismissed, was overruled by Judge Wood, who said that the court had no such power.

Becker gripped District Attorney Earl Warren by the hand when the prosecutor remarked: "there is nothing more to be tried and the case is closed," and in a voice, close to breaking murmured, "I'm sorry."

He then walked to the jail office to await the formal ouster. With tears in his eyes, the former sheriff turned over the keys of office to Miller, and announced as he left the room, "I'm going away for a long rest."

WHAT CHANCE WILL YOUR YOUNGSTER HAVE?

Experts in statistics say that...

With elementary schooling he has one chance in 40,841 of obtaining distinction in his business or profession.

With a high school education, one chance in 1,606.

BUT... with a college education, one chance in 173.

From this, the dollar and cents value of a college education is clearly seen.

The cost of sending a boy or girl to college is a heavy burden if it must be carried from the current income of a family of moderate means. Systematic saving over a period of years lightens the load: \$10 a month deposited in an American Trust savings account, with interest at 4 percent compounded semi-annually, will produce in fifteen years \$2462—enough for four years in college at \$600 a year.
